## EP Industrial Gear Oils

**America's Choice®** EP Industrial Gear Oils are specifically formulated to hold up under extreme high pressure in all types of gear seats excluding built-in variable speed friction drives. They're approved for use in Daimler, Chrysler and General Motors. Increase the life of your heavily loaded or shock loaded bearings and gear sets with EP Industrial Gear Oils.

Safety-Kleen's closed loop re-refining process takes used oil and re-refines it into an exceptional quality base oil that is combined with premium additives to create a high performing re-refined oil. Re-refining oils is an infinitely better way to protect our environment and economy by reducing heavy metal emissions, greenhouse gases and our dependence on foreign oil.

Safety-Kleen, the world's leader in re-refining technology, re-refines **America's Choice®** base oils at our two state-of-the-art re-refineries in East Chicago, Indiana and Breslau, Ontario.
